## EXPERIENCE

### BitPay, Atlanta, GA — Junior Front-End Developer

FEBRUARY 2020 - PRESENT

Rebuilt NuxtJS site into a headless CMS to promote design consistency and reduce time spent making copy updates

### BitPay, GA — Content Specialist / Web Developer

OCTOBER 2017 - JANUARY 2020

Wrote jQuery script to handle GDPR opt-in on our landing page.

Web-scraping script to provide clear insights about the blog

### BitPay, Atlanta, GA — Marketing Intern

MARCH 2017 - SEPTEMBER 2017

Regular copy updates to BitPay's static website (pug template)

Managed design, color scheme, and styling updates to website

## EDUCATION

### University of Houston, Houston, TX — History (2014)

Planned, researched, and wrote an 80 page undergraduate thesis

## PROJECTS

### Estuary — Evernote meets 750Words

Note taking app being converted into an application to assist with following David Allen's Getting Things Done methodology.

### DEV.to API Connector

NodeJS script I wrote to keep my posts on DEV.to in sync with those in my GitHub repo, allowing me to keep track of edits and updates.
