EXPERIENCE

BitPay, Atlanta, GA — *Technical Writer and Content Specialist*

OCTOBER 2017 - PRESENT

Wrote a jQuery script to automatically handle GDPR opt-in for EU visitors to landing page.

Updated tooltips on merchant dashboard to prevent errors compliance and customer success would have to manually correct.

Implemented a blog redesign and managed the blog for both B2B and consumer sides of the business.

Wrote web-scraping script to clean up blog analytics data for clearer insights on which topics were performing best.

BitPay, Atlanta, GA — *Marketing Intern Web Developer*

MARCH 2017 - SEPTEMBER 2017

Regular copy updates to BitPay's static website (pug templates)

Managed design, color scheme, and styling updates to website

Recorded FAQ Videos to help users understand how to use BitPay's products

EDUCATION

University of Houston, Houston, TX — *History* (2014)

Planned, researched, and wrote an 80 page undergraduate thesis

PROJECTS

Estuary — *Evernote meets 750Words*

Keep track of stream-of-consciousness writings while saving notes for future reference. Using it as a playground on how to structure an app, add testing, and add additional functionality without breaking usability
